EUROPEAN ORGANIZATION FOR NUCLEAR RESEARCH

FINANCE COMMITTEE

Tenth Meeting

Geneva - 4 October, 1956

RESOLUTION

Adjudication of the Contract for the Supply of the
Magnet Blocks for the CERN Proton Synchrotron

The Finance Committee, having approved a proposal to that effect by the French and United Kingdom representatives, authorizes the Director-General to negotiate a draft contract with Ansaldo San Giorgio S.A. for the supply of the Magnet Blocks for the Proton Synchrotron. The draft contract shall include a tender by Ansaldo San Giorgio S.A. for the manufacture of the blocks at a fixed price that may not be revised, and there shall be attached to that tender all the tenders from the steelmakers who comply with technical requirements and may still be considered as potential suppliers of the steel. At its next meeting, the Finance Committee will thus be in a position to decide upon the final award of a contract, in which all the cost elements are given.
